

Business Administration

Gabrielle – Attraction & Selection Coordinator (former Trainee)

The opportunity provided by the traineeship was extremely beneficial. I was able to work 4 days on the job and 1 day a week was spent at TAFE where I completed modules and had the help of a classroom teacher.

There's always challenges when starting a new job, especially your first one. I can say the most challenging things were handling the workload of a full time job and completing on-the-job tasks and assessments, as well as spending a day away from the office because of work duties and requirements. But these were outweighed by great moments such as: completing the Traineeship early; having the support and guidance from my OneSteel peers and managers; learning more than expected through the program by working on the job.

I am now a permanent OneSteel employee who has been able to use the skills and experience gained through the Business Administration Traineeship to develop and grow within the company. I work within the Attraction & Selection (recruitment) team. There is a friendly and supportive network of people who are committed to their jobs and the company itself. OneSteel is growing and always has room for the employees to grow too!
