

DURAGAL[®] BUILDING SYSTEMS CHICKEN SHED

The DuraGal[®] Building Systems Broiler Chicken Shed brings to the market a system that offers:

- A light weight, structurally efficient shed constructed from high strength DuraGal[®] RHS.
- A cost effective coating system. The in-line hot dip galvanized external coating and internal paint coating system applied to DuraGal[®] RHS provides a product ready for use.
- A range of pre-engineered sheds.
- Proprietary fittings allow fast and efficient assembly.
- The closed DuraGal[®] RHS frame:
 - Allows easy washing down of the shed interior reducing the risk of dust accumulating and the chance of disease propagation, and
 - Offers streamlined air flow reducing running costs
- A frame system that can accommodate your choice of:
 - Cladding and insulation
 - Environment control systems
 - Feed systems
 - Bay spacing (3.6m is standard and best suited for equipment suspension)

DURAGAL® BUILDING SYSTEMS CHICKEN SHED

ADVANTAGES OF THE DURAGAL® BUILDING SYSTEMS CHICKEN SHED

- Material pre cut and delivered direct to site as a flat pack, ready to install.
- No bridging or sag rods.
- Telescopic knee and apex fittings.
- Reduced edges minimise the chance of vermin perching and nesting in the shed.
- No protruding fasteners.
- Easy & quick to erect.
- No re-entrant surfaces minimising the potential for trapping dust and moisture.
- Visually pleasing clean lines.
- Simple Purlin and Girt fixing.
- Self drilling screws allow speedier assembly.
- Easily cleaned
- No welding and no fiddly, time consuming bolted connections.

SIZE RANGE:

- Up to 60ft/18m span

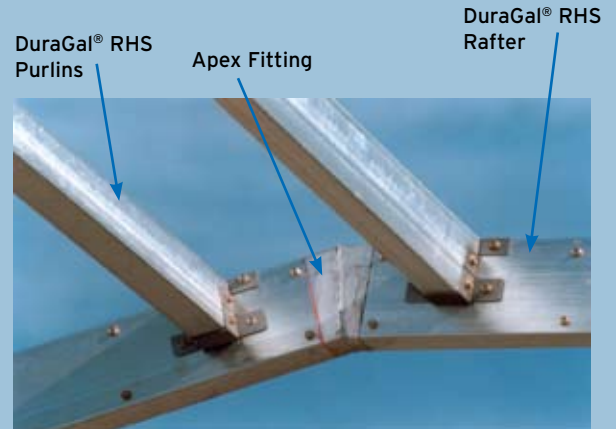

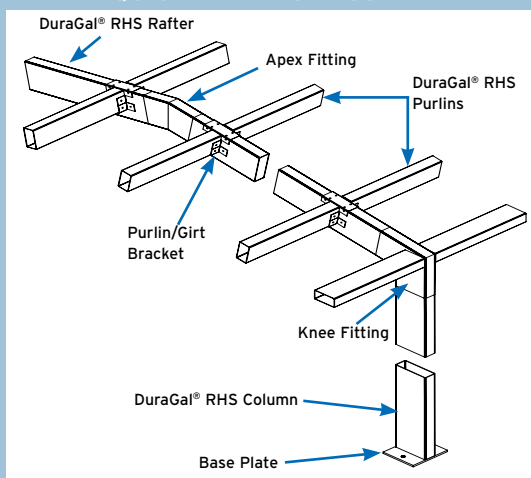

DURAGAL® RHS SIZES:

- 150x50 Columns & Rafters
- 100x50/75x50 Purlins.

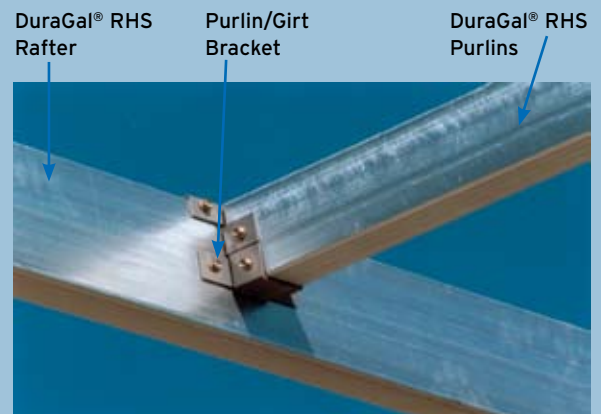

SHED IS ADAPTABLE TO OTHER USES:
